1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

-Claim 8, line 3: "polibutylene terephthalate" has been changed to

-- polybutylene terephthalate--.

-Claim 11, line 5: "a" before "filter" has been changed to --said--.

2. The following is an examiner's statement of reasons for allowance: US Patent No. 5,580,496 (Pall et al) teaches the claimed filter device comprising a porous element comprising at least one fibrous web having a pore size suitable for leukocyte removal wherein the web has fibres of hydrophobic polymer coated with a hydrophilic polymer suitable to enhance the CWST of the hydrophobic polymer (see abstract; col. 7, lines 13-65). However, Pall et al does not teach the use of adsorbent particles having a mean diameter lower than 30 microns and being bonded to the fibres by means of the hydrophilic polymer coating the fibres. US Patent No. 6,951,713 (Hei et al '713) teaches a filter device comprising fibrous matrix having highly porous adsorbent particles immobilized therein wherein the particles range in diameter from about 1 micron to about 200 microns and adsorbent particles are bound to the porous element by thermal bonding, dry-laid process or wet-laid process and then the adsorbent particles are coated with hydrophilic polymer to give surface hemocompatibility (abstract; col. 2, line 35 – col. 3, line 13; col. 12, lines 38-50; col. 17, line 6 - col. 20, line). It would not have been obvious to a person of

Art Unit: 1797

ordinary skill in the art to bind adsorbent particles having a mean diameter lower than 30 microns and being bonded to the fibres by means of the hydrophilic polymer coating the fibres.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOHN KIM whose telephone number is (571)272-1142. The examiner can normally be reached on Monday-Friday 7 a.m. - 3:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Sample can be reached on 571-272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
